

Excess Management Liability Solutions

Intended to follow the underlying policy(s) in a layered program, excess policies are the building blocks that make up the towers of D&O and other Management Liability protection. **ORUG-91** is our excess policy form for public company and private company policyholders.

Policy Highlights (ORUG-91):

- **One-page** streamlined follow-form contract.
- Market-leading **erosion language** for underlying policy limit and sub-limit.
- Ability to follow or match sub-limited coverage, such as **Shareholder Derivative Demand Investigations**.
- Can be used for public or private company excess on either a monoline basis or a multi-line basis, using our **Excess Flex™** endorsement, which identifies and follows the varied coverages usually provided in private company management policies.
- The **Excess Plus™** endorsement creates broadened terms for non-indemnifiable loss within a “traditional” excess D&O layer.
